

**EVERSOURCE ELECTRICAL POWER UTILITY TECHNOLOGY  
INFORMATION SESSIONS  
AT BUNKER HILL COMMUNITY COLLEGE**

Information sessions will be held at Bunker Hill Community College where representatives from **Eversource and BHCC** will discuss the program in greater detail.

Upon completion students will achieve a two-year A.S. degree in **Electronic Technology: Electric Power Utility Technology**. Students will also receive a certificate in Natural Gas Technology. Courses include: Algebra/Trigonometry, Computer Applications and Concepts and an Introduction to Physics.

Prospective students who have met all requirements will participate in a skills orientation which includes activities testing their strength, endurances, ability to work in an elevated position and enclosed spaces. For more information call, 781-441-8300 or visit one of following information sessions held at BHCC.

All information sessions are from 6 to 8p.m.
