

All-City Honors Music Program

October 30th, 2015

Dear Families and Caregivers,

This year marks a rebirth for the Cambridge Public Schools **All-City Honors Music Program**. The program has reorganized and expanded to include a Vocal R&B ensemble to the Concert Band, Chorus, and Orchestra lineup. We are also excited to announce that this year's All-City Honors Music Program will feature masterclasses, field trips, and more performances!

The goals of the All-City Honors Music Program are:

- to serve as an extension of musical learning in the Upper Schools
- to provide a challenging musical experience for those students who are ready and willing
- to create a city-wide community through music

We encourage upper school students, with a passion for music making, to speak to their music teachers about scheduling an interview. This 5-10 minute interview is a necessary step of the process, which allows teachers to assess student readiness for the demands of the All-City Honors Music Program. **Participation in the All-City Honors Music Program will be determined by the music teacher referral and the interview.** All students successfully admitted into the program will receive a full scholarship for participation.
