A rather broad term, Asian-Pacific encompasses all of the Asian continent and the Pacific islands. The month of May was chosen to commemorate the immigration of the first Japanese to the United States on May 7, 1843, and to mark the anniversary of the completion of the transcontinental railroad on May 10, 1869. The majority of the workers who laid the tracks were Chinese immigrants. This month we pay tribute to the generations of Asian and Pacific Islanders who have enriched our country's history and are instrumental in its future success.</p>
