

Calling All Future Engineers!

Grades 6, 7, & 8

Wednesday nights

5:30 pm – 7:00 pm

Cambridge Street Upper School
850 Cambridge St.
Cambridge, MA 02141

January 7th through March 4th, 2014

Future Engineers is an enrichment program designed to engage students willing to explore the Engineering Design Process. Students will be presented with several projects challenging them to work in teams to make both creative and functional designs. Projects include Engineering Recycled Racers, Engineering a Response to a Pandemic, Engineering a Time Keeping Device and more.

The program also features a field trip to see the Engineering Design Process in action!

Please fill out this form and return to the Tutoring Plus office in the lower level of the Fletcher–Maynard Academy. We require additional medical and photo release forms for your child to participate.

Student's Name _____ Date of Birth: _____
