**Tutoring Plus**   At the heart of learning

T++ Coders
Grades 6-8

Thursdays 5:30 – 7:00pm

Fletcher-Maynard Academy
Third Floor Rm. 301

Oct. 29, Nov. 5, 12, 19
Final celebration & field trip Saturday Nov. 21

Do you like game apps like Flappy Birds or Temple Run? Think you have a great idea for a new app that could make money, improve other peoples' lives, or impress your friends and family?

T++ Coders is a program for middle school students to learn the basics of computer programming and apply programming logic to different coding languages. The program ends with a final celebration & a field trip to MIT Media Labs!

No experience in coding is necessary!
Willingness to try and good ideas are enough to become a coder today!
