Cambridge Public Schools

Do you want to know more about the role of assessment in Cambridge Public Schools (CPS)? Would you like to share your perspective as a parent or guardian of a CPS student?

Please join with other families, School Committee members, and CPS Administrators in information-sharing and community conversation about the role of assessment in Cambridge Public Schools. CPS will provide participants with an overview of state and local assessments. This brief presentation will be followed by facilitated, table-based discussion aimed at supporting an open exchange of diverse perspectives. All are welcome to attend! Please bring your questions and stories – we look forward to hearing from you.
