

**Location: Massachusetts Institute of Technology**  
**Dates: August 17, 2015 - August 21, 2015**

**DynaMIT is a completely free, week-long summer program held at MIT for Boston and Cambridge area middle school students. We aim to provide students from low-income families with an opportunity to explore and experience science and engineering through hands-on experimentation. MIT undergraduate students serve as mentors to inspire interest in the STEM fields.**
