

What's Happening in Physical Education

By Shira Catlin, Physical Education Teacher

- Kindergartners have recently finished our unit about chasing, fleeing, and dodging. Last week we finished our unit about balance. Today we started out new unit about manipulatives such as throwing, catching, and kicking!
- First and Second have been exploring levels, pathways, and speeds. Last week we finished our unit about rhythm and balance. Today we started our unit about manipulatives such as throwing, catching, and kicking!
- Third graders have been spending time learning about balance, strength, flexibility, and endurance. Last week we finished our unit where we practiced in a circuit and obstacle course. Today we started our unit about science of the body and nutrition.
- Before the new year 4th and 5th graders were learning about Tchoukball, a game that comes from Switzerland.
- Since break 4th graders have been working on balance, strength, flexibility and endurance. Today we started our science of the body and nutrition unit.
- 5th graders have begun Ballroom dance! We are halfway through our learning about Ballroom dance and have explored the Bachata, Merengue, Salsa, and Swing rhythms. The 5th graders will be performing on March 14th at CRLS, we will send more information home soon with details!
