

Launch your April vacation with the Cambridge Science Festival April 15 – 24, 2016

185+ events throughout Cambridge & Greater Boston!

The Cambridge Science Festival is an annual 10-day celebration of science, technology, engineering, art and math in Cambridge, Boston, and New England and the global impact of those endeavors. Every spring, the Cambridge Science Festival makes science accessible, engaging and fun for everyone through multifaceted, multicultural events.

Check out this selection of just some of the great events in Cambridge for teens, kids and families during the Festival. See something that makes you curious? Find out details and lots more at CambridgeScienceFestival.org. Events that are part of the EL STEAM Collaboration have this symbol:
