WHY:

Our mission:

*The Harvard College Youth Leadership Initiative is dedicated to fostering excellence in the budding young leaders of Cambridge communities. We understand that to be a successful leader, our members must first wholly understand and acknowledge the importance of leadership roles in their community. Our program strives to broaden the scope of interpersonal skills, develop specific practical techniques for leaders, and form a widened social conscience. Together, we pride ourselves on not just training the leaders of tomorrow, but the leaders of today.*
