Theory of Action

If we…

- Provide all students with rigorous and culturally relevant curriculum and the resources and programs that support their goals, and

- Provide rigorous, joyful, and culturally responsive learning for all students and educators that incorporate real world applications and are based in high expectations and a growth mindset, and

- Build strong relationships with each student and provide each student as an individual with the academic, social, emotional, and behavioral health supports that are necessary for their success, and

- Expand and strengthen meaningful partnerships with families and the businesses, higher education institutions, city, and community organizations of Cambridge in order to achieve our vision for all students, and

- Work as a flexible and adaptable learning organization that uses data to support a continuous improvement process,

Then we will…

- Provide all CPS students, in all student groups, with the academic knowledge and skills they need to achieve their goals and post secondary success as engaged community members.

The Cambridge Public Schools, in partnership with our families and community, will provide all students with rigorous, joyful, and culturally responsive learning as well as the social, emotional, and academic supports each student needs to achieve their goals and post secondary success as engaged community members. CPS students and staff, as members of a learning organization engaged in continuous improvement, will demonstrate a growth mindset and embrace risk taking and innovation.
