

# Join us at the BEEAM Info Session!

Are you interested in a STEM field?  
How do STEM scientists solve real-life  
problems?

Year-long research internship at MIT! What!?

**When?** February 25th (Thursday)  
**Time?** 3:30 PM - 4:30 PM

## **ZOOM LINK**

**BEEAM** (Broadening Engagement through Engineering At MIT) is a **year-round high school science education and research intern program**, designed for rising juniors and seniors from Cambridge Rindge and Latin High School, developed by the Massachusetts Institute of Technology in conjunction with the NSF Science and Technology Center on Emergent Behaviors of Integrated Cellular Systems (EBICS).

### **Eligibility**

- Any CRLS student who are rising juniors and seniors.
- You are NOT required to be part of the RSTA program.
- All students are encouraged to apply, including **women, underrepresented minorities, first-generation college students, educationally and financially disadvantaged students, and students with disabilities.**
